

# CERTIFICATION STANDARD: EN 10204

When purchasing metallic products the assurance of certification is an important requirement. EN 10204 originated in 1991 with the latest version being EN 10204:2004; the document was prepared under a mandate given to the European Committee for Standardisation (from CEN Comite Europeen de Normalisation) and exists in three official languages (English, French & German).

The purpose and scope of the document specifies the different types of inspection documents supplied to the purchaser relating to the delivery of metallic products e.g. tubes, pipes, bars & sheets. The certification is issued by the mill manufacturer as part of the Mill Test Certificate.

When purchasing from us our test certificates are to EN10204:2004 3.1 as standard, in English, German, French or Italian as required with the further assurance QR code validation of product authenticity. On request we can additionally certify to EN10204:2004 3.2

EN 1024 Reference	English version	German version	French version	Document content	Document validated by
Type 2.1	Declaration of compliance with order	Werksbescheinigung	Attestation de conformité à la commande	Statement of compliance with the order	The manufacturer
Type 2.2	Test report	Werkzeugnis	relevé de contrôle	Statement of compliance with the order, with indication of results of nonspecific inspection	The manufacturer
Type 3.1	Inspection Certificate 3.1	Abnahmeprüfzeugnis 3.1	Certificat de réception 3.1	Statement of compliance with the order, with indication of results of specific inspection	The manufacturer's authorized inspection representative independent of the manufacturing department
Type 3.2	Inspection Certificate 3.2	Abnahmeprüfzeugnis 3.2	Certificat de réception 3.2	Statement of compliance with the order, with indication of results of specific inspection	The manufacturer's authorized inspection representative independent of the manufacturing department and either the purchaser's authorized inspection representative or the inspector designated by the official regulations
